## REGULAR CAMPPIGN JOKE SPRUNG AGAIN

Democrats Send Out Reports That Cause Laughter Over Their Falsity.

Republican State Chairman S. V. Matthews was today shown an article from a Democratic newspaper executive committee which showed such had been taken by the Republican Executive Committee, which showed much discouraging results (only a majority of about 10,000)—that a new poll had been ordered taken at once.

When he read the clipping handed to him, Chairman Matthews smiled a broad smile, which ended in a hearty laugh. "That falsehood is as absurd," said he, "that it is entitled to a place in the joke smith's department of any newspaper that uses it. It is merely manufactured guff—nothing in it—nothing to it."

"The fact of the matter is that our polls have resulted very satisfactorily to us. We have this fight won, and we are as ready for the voting to be held tomorrow as we will be November 3. But it is not the Republican policy to stop fighting till the last ballot is dropped in the box. We will win such a victory in West Virginia this fall that will set at rest for all time that this state is so solidly and overwhelmingly Republican that it is useless for the Democratic party ever to hope to be able to swing it from allegiance to the Republican party."

"You may say, and say it strong, that Republican everywhere in West Virginia may know the glad tidings, that the fight is won in West Virginia for Taft, Glasscock, the five congressmen, the entire state ticket. It will be a sweeping and complete victory all along the line. There is absolutely no question about it. The differences of the past have been lost in the enthusiasm of the present. There isn't a bad report from any one of the thirty-eight Republican counties in the State, and I want to add, too, that we have every reason to expect to win at least two heretofore Democratic counties away from the enemy."

### What Farmers Gained.

The total loss to farmers, as shown by the differences between the value to the farmer of farm products and live stock when the Democracy was in control at Washington and the value during the Republican administration, which preceded and followed Democratic control, amounted to more than \$1,000,000,000, and that without taking account of the gain that would doubtless have accrued had Republican administrations been in power in place of the Democratic. It is worth noting in this connection that during the first Cleveland period, when the value of farm products to the farmer began to decline, there had been no legislative interference with conditions as they prevailed under preceding Republican administrations, but the mere apprehension due to the Democrats being in power was sufficient to weaken business energies, demoralize trade and bring down prices for what the farmer had to supply. Business revived when the Republicans returned to power under Harrison, and the farmer was among the gainers.

The farm value of the wheat crop for Cleveland's first four years was \$1,285,000,000. For the four years of Roosevelt's second term the wheat crop will show a value to the farmer of over \$2,000,000,000. The farm value of the wheat crop during the first three years is \$1,568,000,000.

The oat crop, which under the first Cleveland administration amounted to \$762,000,000 and under Cleveland's second administration to \$699,000,000, has increased in farm value to \$918,000,000 for the first three years of the present term of President Roosevelt and will considerably exceed \$1,000,000,000 for the full term.

The hay crop was worth \$388,000,000 in 1896, the last year of Democratic administration at Washington. In 1907 the hay crop was worth \$1,389,901,000. In 1896 the potato crop was worth \$72,000,000. In 1907 the value to the cultivator was \$183,900,000.

The farm animals of the country increased in value from \$1,655,000,000 on Jan. 1, 1907, to \$4,331,000,000 on Jan. 1, 1908. The number of milk cows has increased from 15,942,000 to 21,194,000 and their value from \$369,000,000 to \$650,000,000. The number of cattle other than milk cows has increased from 29,508,000 to 50,073,000 and their value from \$508,000,000 to \$846,000,000. The number of sheep has increased from 36,819,000 to 54,631,000 and their value from \$67,000,000 to \$212,000,000. The number of swine has increased from 40,000,000 to 56,084,000 and their value from \$168,000,000 to \$330,000,000.

Notwithstanding automobiles the number of horses has increased from 14,365,000 to 19,902,000 and their value from \$453,000,000 to \$1,868,000,000. The number of mules has increased from 2,216,000 to 3,869,000 and their value from \$92,000,000 to \$417,000,000.

It will be perceived that the increase of the farmer's profit from his live stock is much greater than the increase in the total number of animals. The total value of sheep, for example, is more than three, that of mules three and one-half times and that of horses more than four times what it was when the Republicans took hold of the administration of affairs eleven years ago.

These figures indicate plainly to the farmer what the Republicans have done for him. Thousands of millions of dollars have been put into the pockets of American farmers during the past ten years through the policy consistently maintained by the Republican party throughout its history of encouraging American industry and thereby maintaining a market for the products of the farmer. It is most incredible that American farmers, knowing the facts and figures we have taken from the official records, will do anything to injure their own interests and cause a halt in the progress under Republican rule which has made American agriculturists the most prosperous in the world. Taft and Sherman, the Republican candidates for president and vice president of the United States, represent the policies which make the farm pay and the farmer independent, and they will doubtless receive the practically unanimous support of farmers throughout the Union.

### EXTERNAL REMEDY FOR ECZEMA

Why Salves Fall While a Simple Liquid Has Accomplished Thousands of Cures

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease. Due to a germ and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and therefore prove they have no diseased blood.

Smearly salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by a penetrating liquid. Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound known as D. D. D. Prescription stops the itch instantly—and the cures all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merits of this remedy. The effect of D. D. D. Prescription in number the itching eczema germs is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with this treatment. ### BROWN OCTOBER DAYS

There's a sort of springtime feeling in those brown October days; there are times when Old to beats you with the warmth of his rays—and you wish you hadn't started in to house-clean quite so soon, for scrubbing makes you feel that it's an August day at noon, and then you wonder why you never took that friend's advice, for then you'd have your wood work and the floor all finished nice; for she told you Spartan Stain was just the thing to use on wood—your work would not be half as hard if you'd done as you should. Every lady who has house-cleaning to do should use Spartan stain. Made by the Marietta Paint & Color Co., Marietta, O. Sold by the Home Furnishing Co., Main street, Clarksburg.
